

# **Disaster and Climate Change**

## **Policy Asks from Odisha Vikash Conclave**

### 1. Disaster management Institutions-

- Study good practices of SDMA's in Assam, Bihar, Gujarat & Sikkim and adopt in OSDMA
- Introduce dynamic, contextualized, decentralized, participatory DRR & CCA planning aligned with Development Planning
- Strengthen DDMA's
- Empower Block/Panchayats
- Systematic approach to main streaming of DRR, CCA with Development Planning and Program Implementation.

### 2. Smart Disaster Response-

- Partnership with dignity, responsibility and accountability
- Develop and use Partnership Protocol for Government-Civil Society Partnership, NGO-Corporate Partnership and Government-Corporate Partnership
- Multi-disciplinary strategy & approach
- Intesify installing AWS at Panchayat level and revitalize O-Prob initiative by DST
- Adopt state of art response standards and track Indicators for results

### 3. Capacity building-

- Disaster Museum – Know your Disaster
- Pool mobilize Risk and resilience expertise
- Prepare comprehensive capacity needs assessment as a pre requisite of setting up of SIDM
- Research and develop DRA protocol
- Develop strong and comprehensive data base on risk and resilience

### 4. Convergence at Vision 2030-

- Constitute a working group on convergence
- Piloting convergence of global thoughts to local actions
- Aim at leadership in convergent action

- Convert proposed SIDM to a much holistic state of art knowledge institution on risk , resilience, sustainability, environment and eco system management- Odisha Climate Institute.
